

Don't Look Away!

This summer, even as President Joe Biden spoke of an end to endless wars, he said that the U.S. would maintain "Beyond the Horizon" drone attack capability. On August 29, 2021, during the chaotic evacuation of Kabul, a drone attack that the Pentagon said targeted "terrorists" killed these 10 members of the Ahmadi family.

Sumaya, 2;
Ayay, 2; Malika, 3;
Binyamin, 3;
Armin, 4; Faisal, 10;
Farsad, 10;
Damer, 20;
Ezmari, 40;
Ahmad Nasir, 30

Please contact President Biden and your representatives in Congress and **demand**:

1. Immediate reparations for the Ahmadi family.
2. Release of all government files on the Aug. 29 drone attack.
3. Unfreezing of Afghan funds in U.S. banks to prevent starvation.
4. Pardon for drone warfare truth-teller Daniel Hale (over).
5. Support for an international treaty banning killer drones (over)

Go to www.usa.gov/elected-officials for contact info for your representatives.

Pardon Daniel Hale

In 2013, Daniel Hale, a U.S. Air Force veteran who participated in the drone assassination program, released documents to the press showing gross program failings, such as the probability that 90% of those being killed are being killed mistakenly. In July 2021, Daniel was sentenced to 44 months in federal prison for revealing truths that should have halted the drone program. Please urge President Biden to pardon Daniel Hale. Learn more about Daniel’s case at standwithdanielhale.org, including how to write to him in support.

BanKillerDrones.org is an organization working to achieve an international treaty to ban all weaponized drones and military and police drone surveillance. **Please send a postcard** urging U.N. Secretary General Antonio Guterres and members of your national governing body to support this ban so we can stop drone killing and repression NOW and never see the day when drones, through artificial intelligence technology, make their own, autonomous decisions on whom they attack.
